

## Praise Ye The Lord!

The Spirit of God adds glorious increase to our Worship

This year's Easter/Passover program stood out. The Lord Himself added an undeniable increase to the service. Everyone was used of the Lord. Though the choir was socially spaced to adhere to health protocols, Easter Sunday, the choir sounded like extra people were placed in the spaces. The richness of the tone far exceeded everything sung in the rehearsals. What an encouragement it was for our pastor and the saints, and a blessing to all the guest that attended. Because of our Lord, who is rich in His blessed kindness, Brother Willis was able to deliver his soul by sharing the Gospel of Jesus Christ. To God be all the Glory!

## Season of National Prayer

May will be a time for prayer on the National, State and Local levels

New Covenant Church will actively be attending and participating in several of the prayer events being held the first week of May. Check the back page of Cornerstone and please listen to the announcements regarding the first week in May. And on a personal level continue in our church's corporate prayer time, held on Wednesday nights at 7:30 in the comfort of our own home.

## Attention all NCC Brotherhood

Mother's Day rehearsals have begun. Make plans now to show up so we can honor the gemstones in our lives all together. Check the back of Cornerstone and please listen for announcements for dates and times.

# ALL GLORY TO THE RISEN KING!

## Biblical Words of Encouragement

Corporate Prayer every Wednesday  
7:30 p.m.

## HEALTH AND NUTRITION

Excerpt taken from: <https://www.health.harvard.edu/healthbeat/the-secret-to-better-health-exercise>

### Fighting disease with aerobic activity

Aerobic exercise is the centerpiece of any fitness program. Nearly all of the research regarding the disease-fighting benefits of exercise revolves around cardiovascular activity, which includes walking, jogging, swimming, and cycling. Experts recommend working out at moderate intensity when you perform aerobic exercise — brisk walking that quickens your breathing is one example. This level of activity is safe for almost everyone and provides the desired health benefits. Additional health benefits may flow from increased intensity.

*Please consult your physician before making changes to your diet or activity — NCC Health & Nutrition Team.*

## MAY BIRTHDAYS

Johnny Hill  
Mattie Richard  
Richard Smith, Sr.  
Russell Richard  
James Bailey
